

Global Partner for Growth

//// BEEONTRADE

Who we are?

Beeontrade is a tech-enabled Freight Forwarder, 3PL with an infrastructure and a cloud-based platform to manage your supply-chain, logistics, customs, warehousing, fulfillment and supply chain management activities.

What we want to do?

We want to enable faster and more flexible access to global trade, for everybody in the world! So, what we're trying to figure out is, how do we create the best commerce experience for all. That's our key objective here / at Beeontrade.

BEEONTRADE

Foreign Subsidiaries

/INDIA

Established in October 2021, Beeontrade India provides back-end support for the US, Turkey, and Dubai offices. It plays a critical role in managing operations, customer service, finance, documentation, and inside sales activities for the Beeontrade brand, ensuring streamlined and efficient workflows across the global network.

/TURKEY

Based in İzmir, Beeontrade Turkey specializes in air and ocean freight services with exclusive service contracts connecting the USA, Dubai, and India. With a robust logistics network, Beeontrade Turkey serves nearly 130 active local exporters, ensuring efficient and reliable international trade solutions.

/DUBAI

Beeontrade Dubai focuses on air freight distribution and local customs brokerage services. Leveraging a comprehensive logistics network, the Dubai office acts as a vital hub for seamless operations across the Middle East, providing tailored solutions for regional and international freight needs.

Our Story

I started this company with one goal in mind: head turning, connected end to end supply chain experience provided by the highest quality team I could find, delivered straight to your business. By cutting out the low performers in your supply chain, excessive mark ups are eliminated. You get a higher quality shipping experience at a more attractive price point with expertise, technology and global warehouse network.

Innovation & Technology

Everything you need to know about your shipment all in one place. Track everything, find departure and arrival times, manage notifications, documents, invoices, and Ship to and from anywhere. Track everything. See what happens when data drives your decisions.

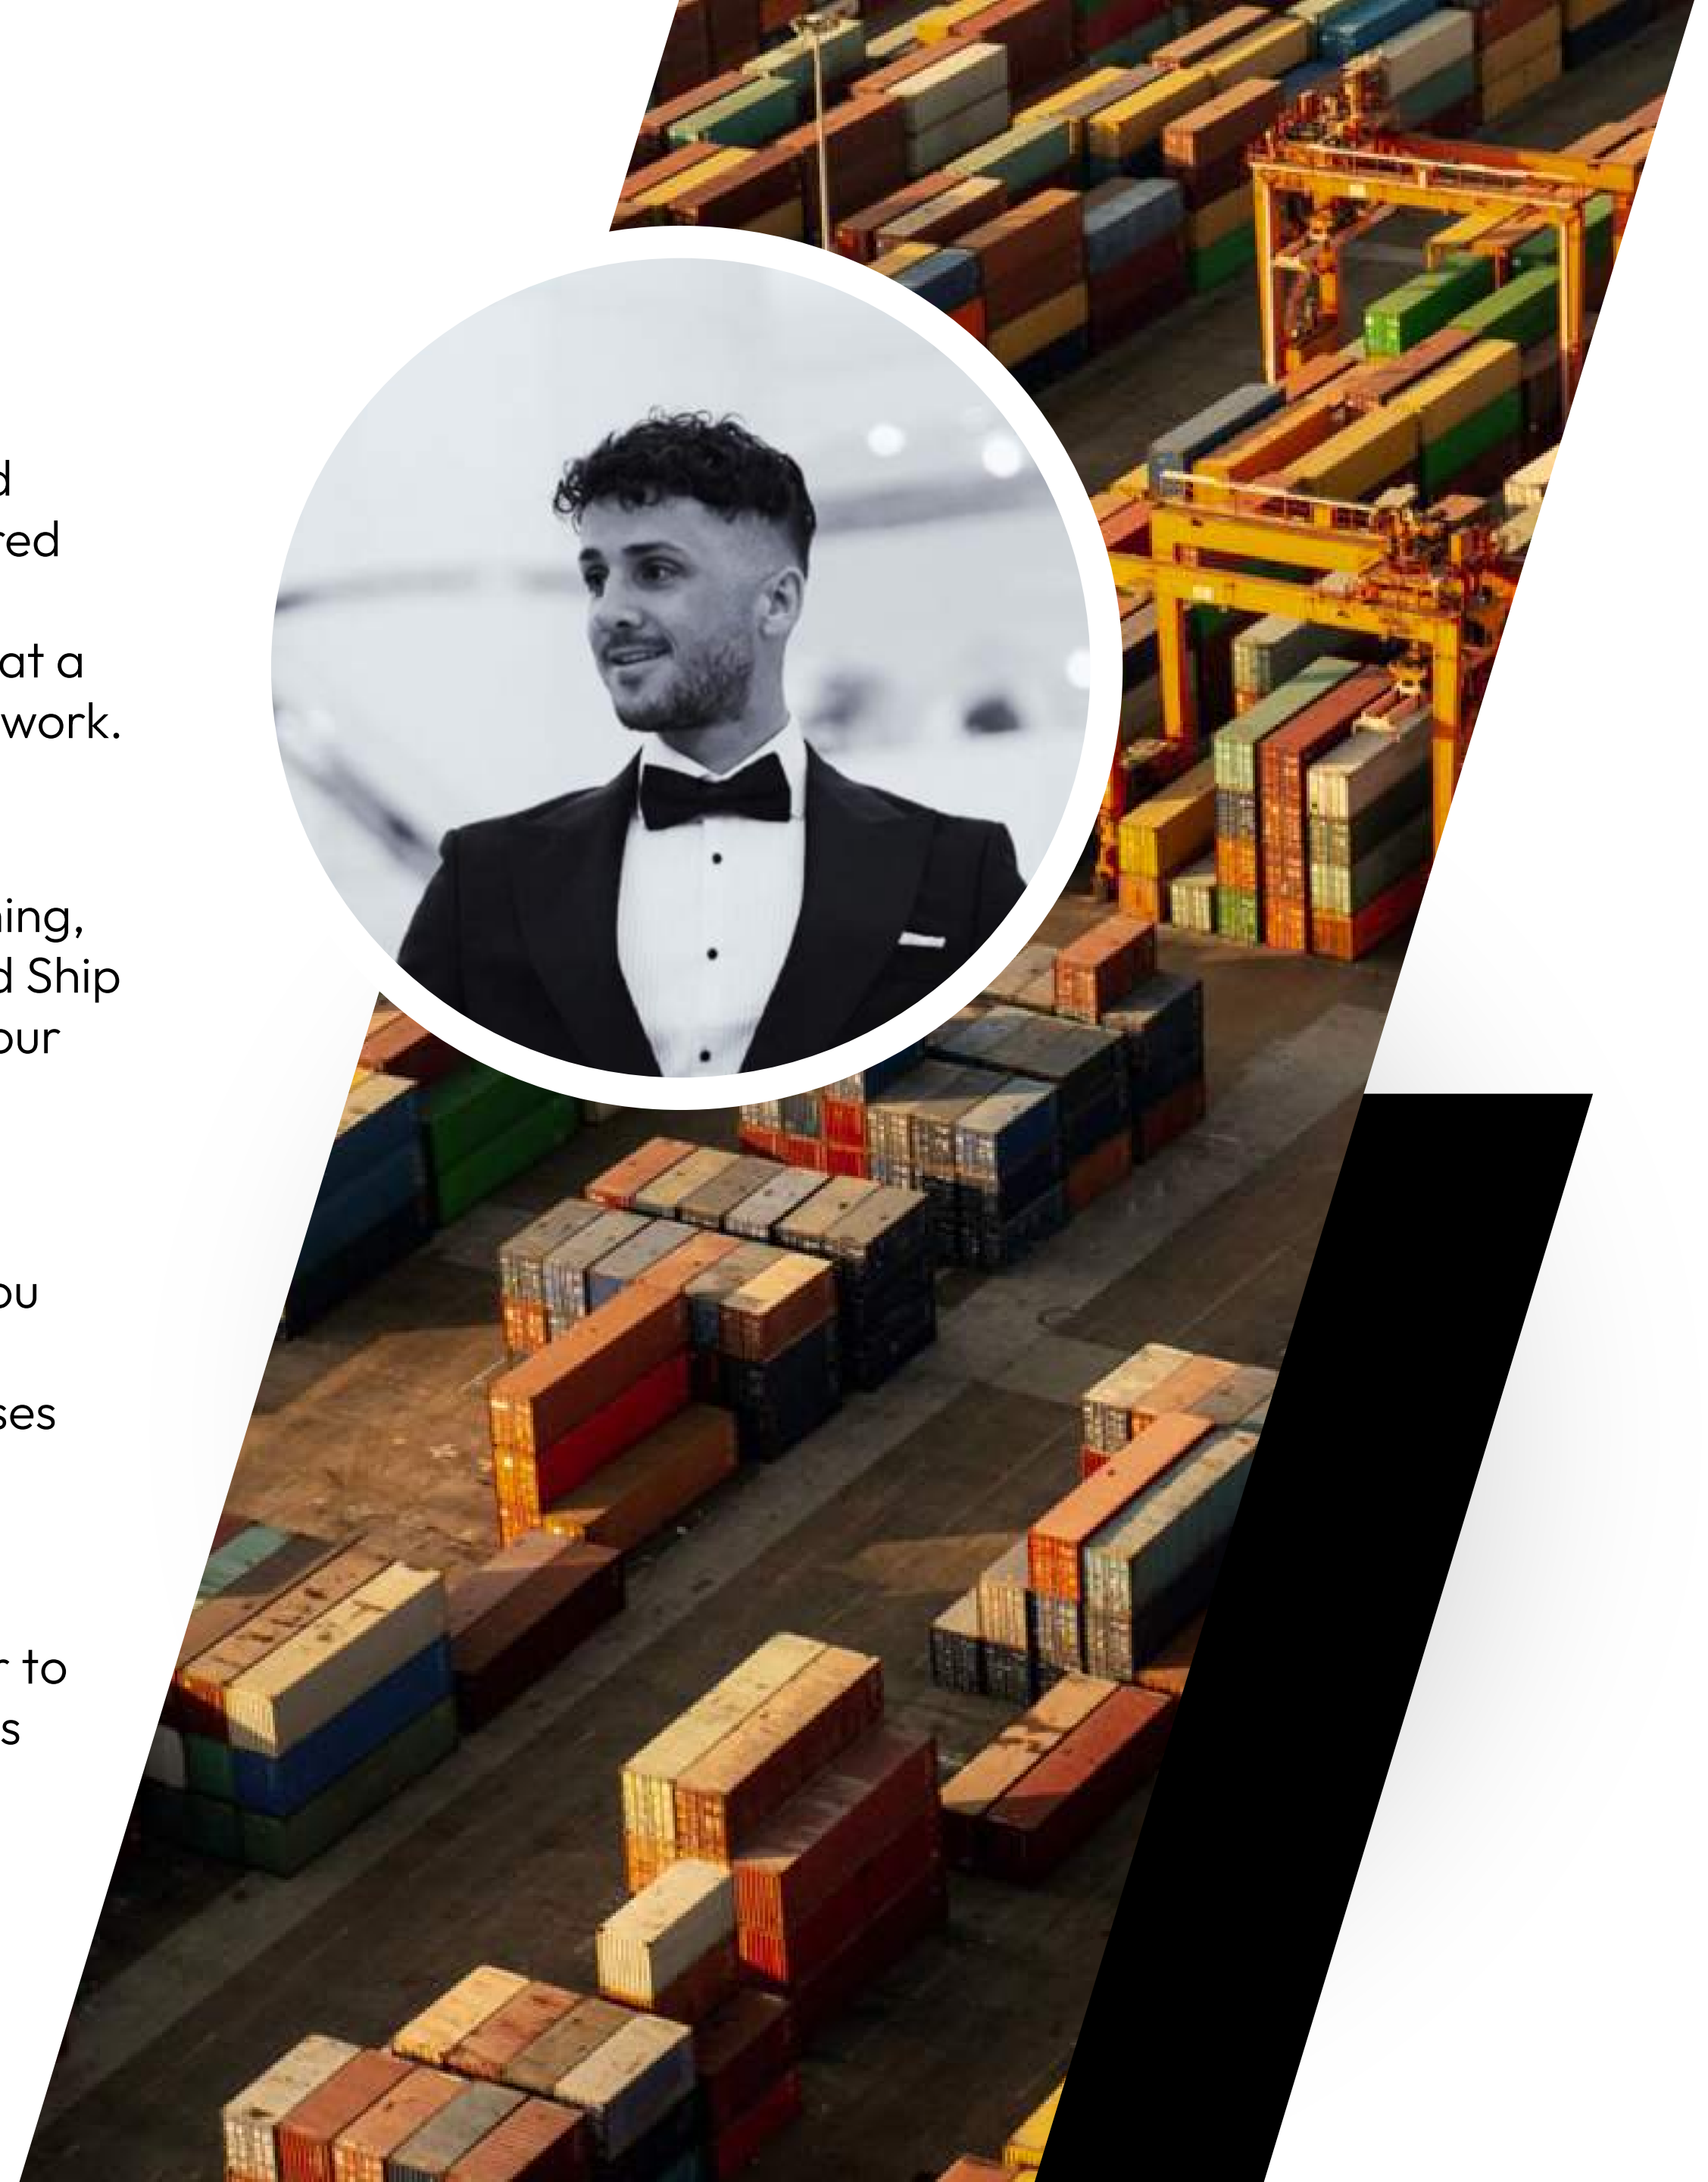

Squad Service Framework

Our proprietary strategic planning process designed to build the gap between you and the competition. This is where everything starts at Beeontrade. It's the foundational framework for helping tranform our client's current logistic processes into powerhouse supply chain.

Warehouse & Fulfillment Network

A distributed network of certified warehouses let us position your products closer to your customers for affordable 1-2 day shipping. Get full control over the features through one our proprietary software.

BEEONTRADE

See you around the world

Expanding globally can be one of the most frustrating yet rewarding endeavors of our business journey. Refer to this presentation as you enter each new phase of international expansion. Contact with Beeontrade to avoid costly mistakes. Let us guide your decision making.

Time, technology, and trade change quickly. Like you, Beeontrade is at the forefront of global expansion.

Safe journey, and see you around the world!
